

Modern, purpose-built offices - can these really be “unfit for purpose”?

The public needs to know:

Why EDDC has refused permission for the public to inspect these buildings and calculate the office space which is believed to be sufficient for Council needs.

Why councillors and Mr Cohen have focussed exclusively on the older buildings when claiming Knowle is “unfit for purpose”.

Why EDDC is ignoring government guidelines which clearly state that refurbishment should be preferred to new-build.

Why EDDC hasn't properly explored the option of renting (or selling) all or some of the older buildings for housing or for offices to other firms in order to fund the refitting of the modern offices.
